Subject: Section 28 Update--APS

MSB Maine Community Email | March 7, 2014

APS has published a [Section 28 Procedural Guide](#) which clarifies that Functional Assessments must be completed every two years. It appears APS will deny Continued Stay Reviews that are submitted more than two years after the functional assessment score was recorded. Although this requirement is not included within the Section 28 regulations of the MaineCare Benefits Manual, districts should plan to complete functional assessments every 2 years for all students receiving Section 28 services to satisfy the requirements of the Section 28 Procedural Guide.
