Subject: Hidden Reimbursement Sources for Out of District Students

MSB New Hampshire Community Email | October 25, 2013

If your district has a child placed at a facility that bundles the cost of health-related services into a flat tuition rate, those services may be reimbursable.

In most cases, MSB can pursue reimbursement for your district as long as:

- At the onset of a placement agreement, the district requests the facility to ensure that billable services will be recorded by the service provider(s), either through Lumea or transaction logs.
- The child is eligible for Medicaid.
- The IEP, ORRF and Parental Consent are in place.
- The service provider is properly licensed, or, in the case of out-of-state or non-DOE-certified mental health providers, a waiver is secured by the district.
- The OOD facility does not bill DHHS directly for health-related services.

Since transportation costs are only reimbursable for days during which a child receives a health-related, covered service, making sure that the above elements are in place can have a double impact on your Medicaid reimbursement.

If you have any questions, or would like to learn more, please contact Jana Dalton at jdalton@msb-services.com or Steve Courter at scourter@msb-services.com.
